

## Announcement Regarding RFP: Comprehensive Home Based Services

After careful consideration it has been determined DCS will financially support training for 3 evidence based approaches through the Comprehensive Home based Service RFP, definition of support will vary upon EBP.

- Family Centered Treatment
- Motivational Interviewing
- Trauma Focused- Cognitive Behavioral Therapy

DCS will consider contracting with providers who propose the implementation of other EBP's through the Comprehensive Home based Service RFP, but training for other models (outside of the models listed above) will not be supported with DCS funding.

Regarding MRO: At the point of release of the RFP, it was anticipated that portions of the services covered by this RFP could be billed to Medicaid Rehabilitation Option. After further study, DCS has determined that this RFP will focus on services to families who do not qualify for Medicaid Rehabilitation Option services.
